

A Society of Souls®
The School for Nondual Healing and Awakening™

**Kabbalah & Nonduality:
A Radical Approach to Healing
Omega, Rhinebeck, New York
Friday May 25-Monday May 28, 2012
With Jinen Brenda Carter Blessings**

How does awakening heal the body, mind and spirit? What is the role of the ego in healing and awakening? How do we learn to meet constant change, movement and difference in the world?

In this intimate workshop on Memorial weekend, we will explore these profound questions and a new relationship to transformation and healing. This workshop is based on the revolutionary work of Jason Shulman, internationally known modern Kabbalist, Buddhist teacher and founder of A Society of Souls—taught by his Dharma Heir, Jinen Brenda Carter Blessings.

From the awakened point of view, our very longing for healing and liberation is due to the ongoing action of God. This is God calling to God. Only by facing our deepest humanity with its limitations, imperfections and simple joys can we experience the liberation that is our birthright.

We begin with deep compassion for being human and the understanding that our problems have a single origin—the sense of being a separate ego personality self only and not in relationship to the Whole of Reality. This workshop will include an introduction to the four universes of the Kabbalah and the Healing of Immanence to heal into the nondual state. Many describe this healing as life-changing and a turning point on their spiritual journey.

Brenda Carter Blessings is Executive Director and Senior Teacher of A Society of Souls, The School for Nondual Healing and Awakening, based in the U.S. and Netherlands, which teaches a four year training in Nondual Kabbalistic Healing®, as well as the Magi Process®, Impersonal Movement® and the Work of Return®.
